

Burglary Solved But Local Case A Mystery

Suspects In St. Mary's Theft Nabbed, Confess Murphysboro Break-In

Determined to solve last week's theft of \$1200 in church picnic receipts, Madison police have managed to solve a crime with the arrest of two men. But the loot was from Murphysboro, Ill., tavern burglary early Thursday, instead of the local theft, an intensive investigation showed Saturday.

Police had become suspicious when they learned the pair had been changing many rolls of coins into currency at Quad-City banks Thursday. While still unsuccessful in locating the thief who entered St. Mary's school June 20, the Madison officers successfully completed the tavern case and turned over the men, evidence and statements yesterday to Murphysboro police.

The Madison department, which worked with the Granite City and Murphysboro police, identified the men as Omer Eugene Webb, 30, of 400 North 12th street, Murphysboro, and Robert Joseph Stahlman, 22, Rural Route Three, Murphysboro, both unemployed at Madison for a two-week period four months ago.

Burglary charges were filed yesterday at Murphysboro against the two men, who also have implicated a third man in the \$630 tavern break-in there. They are in custody today at the Jackson county jail.

Wrap Coins Here
Reconstructing the events, Madison police said the trio divided an estimated \$300 in bills, and the two then brought \$350 in change here, telling a Granite City girl whom they met Thursday that they had an interest in a tavern.

They placed nickels, dimes and quarters in paper wipers while seated in their car here and then took turns going to local banks. The two men visited a Madison tavern Thursday afternoon and still appeared to have about \$10 in change at that time.

Police heard of the brief stay, after which Webb and Stahlman drove back to Murphysboro, and questioning of witnesses was started Friday. At this point, it was believed that the two men had been involved in the St. Mary's theft, in which the loot included large quantities of coins.

With the information all seeming to point toward the two men, the Madison department contacted Murphysboro authorities Friday night, learning that the Murphysboro police had unsuccessfully questioned them in regard to the tavern break-in.

Brought To Madison
Arrangements were made for their arrest, and Madison police brought them here Saturday afternoon, obtaining the confession that evening.

While some points still remain to be checked in the St. Mary's theft, it was decided to prepare a report.

Zoning Would Protect Property

75 Hear Explanation Of Proposed Law For County's Rural Areas

Protection of property through zoning and land use controls was emphasized Thursday evening during a public meeting of the YMCA conducted by the Madison County Citizens' Planning Committee, whose members are urging adoption of a zoning code for unincorporated areas of the county.

The meeting, fourth in a series of five being held throughout the county to acquaint residents with the proposed law, was attended by about 75 persons. It was announced that after a zoning law is prepared, public hearings will be conducted in each of the county's 24 townships.

Thomas A. Butler of Alton, chairman of the Madison County Plan Commission, pointed out the main purposes of the proposed zoning law are to control land uses and preserve current property values.

"No county planning or zoning law will tell the owner what he can do with the land," Butler explained, adding that zoning will control future uses by an "exclusionary" law. He stressed that counties with zoning controls are "making progress and thriving," and that Madison county, which is the largest in the state and has some of the most important industrial plants in southern Illinois, has no controls over its future growth—such as where industries, homes and subdivisions should be located.

Planning Firm At Work
In outlining the history of the county planning commission, Butler said the first undertaking was a start in 1952 on preparation of tax assessment maps. He said the maps (aerial photographs) cost \$160,000 and are being used by the county to eliminate the need to publish lengthy property descriptions, and that the maps also can be valuable in the land use study and preparation of zoning laws.

Butler also pointed out that 82% of the county taxes are paid by the seven townships lying between the Mississippi River and the Illinois River. He said the need to protect this valuable land would be possible with zoning and land use laws.

C. E. Townsend, editor and publisher of the Press-Record and member of the county's citizens' planning committee, presided at Thursday's meeting, and in introducing William Lawrence, president of the planning firm, stressed the importance of the need for a pattern of growth for the county as well as for the city.

Gibson also is chairman of the board for the Granite City Housing Authority.

\$950 Stolen From Truck; Loot At Firms Tops \$300

Cash totaling \$950, removed from a grocery store and placed in a truck by the proprietor, was stolen Thursday night, the sheriff's office was notified. The theft took place in front of Atkins' Grocery, 2604 Missouri avenue, just outside the city limits.

James L. Atkins said he put the day's receipts and other funds in the pickup truck's glove compartment, locked the vehicle and left it unattended for a few minutes.

When he returned, the glass had been broken out of a vent window, the door unlocked and the vehicle was missing. The report was received at 10:38 p.m. Thursday.

Unlocked Safe Looted
Thieves made off with \$272 and a \$20 roll of four-cent stamps from an unlocked safe at Sider Supply Co., 1101 Nineteenth street, it was discovered about 6:50 a.m. Friday; and the owner of Kacera Distributing Co. in the same building also was entered and ransacked but nothing was reported missing.

The supply firm was entered through a rear door, and the burglars forced open an inside door to get to the office. The money and stamps were taken from the unlocked safe, and before leaving, the thieves ransacked the entire office, scattering papers on the floor.

A third break-in, also reported Friday morning, was at the West Side tavern, 1034 West 20th street, directly across the network of railroad tracks from the Kacera-Sider building. Entrance was gained by forcing a side door, and an undetermined amount of cash and stamps was taken.

Man Robbed, Arrest Three
Three robbers were arrested by Venice police after Virgil Gibson, 34, St. Louis, reported being "robbed" for his wallet and \$30 while asleep at the bar of Nor's tavern, 718 Main street, at about 1:30 a.m. Thursday. He is recovering from the robbery.

The wallet was recovered on Main street by police, who hailed Gibson's car and the group as they drove toward the McKinley bridge.

Hearings were set for July 2, with Frank Gill, St. Louis, posting \$150 cash bond, Grace Venice, 30, St. Louis, posting \$50 and Shirley Jean Aldrich, 26, St. Louis, posting \$60. Gill was charged with petty larceny, assault, peace disturbance, drunkenness and resisting arrest, the latter with a knife. Venice was charged with resisting arrest, conduct and drunkenness, and the other woman with careless driving and resisting arrest.

Eight Charges Against Man
Calvin Fordy, 2161 Miracle avenue, was booked at the Granite City police station Saturday afternoon on five counts of disorderly conduct and three counts of trespassing. He was released on \$150 cash bond yesterday and appeared for a hearing Saturday.

Police reported taking him at 11:15 p.m. Saturday to his home, where they confiscated a battery and open-end wrenches. The charges were based on a report of articles missing from the Tubbs home at 2164 Miracle avenue and locations in the Granite City area, county authorities said.

Soda Machine Looted
A soda dispensing machine at the Citizens Service station, Nameoki road and Hill avenue, was broken open and the money box, containing an undetermined amount of money, was stolen, police discovered about 4 a.m. Saturday.

An unsuccessful attempt was made to force open another soda machine at the same location.

PROBLEMS WITHOUT ZONING were outlined Thursday evening by Alton W. May (at microphone) during a public meeting of the local YMCA on the county's proposed zoning and land use law for unincorporated areas. Left to right—William Lawrence, president of the planning firm of Everett Kincaid & Associates; C. E. Townsend, Press-Record editor and publisher, member of the Madison County Citizens' Planning Committee and chairman of the board's Zoning and Subdivision Control committee; and Thomas Butler, chairman of the Madison County Plan Commission.

Police Watching Motorists' 'Shortcut'

Work On Pontoon Water Lines Done; NLRB Job Ruling

Motorists who have been "short-cutting" a stop sign at East 23rd street and Nameoki road may be in for a surprise. Granite City police are now keeping a watchful eye on the intersection and four-way stop.

A complaint was received about 3 p.m. yesterday that to avoid the stop signs, motorists were taking a "shortcut" through the driveways at a vacant service station on the northwest corner.

An officer was posted there for a short time and reported he saw no violations.

Work On Pontoon Water Lines Done; NLRB Job Ruling
Construction work on installation of water lines in the Pontoon Beach area was completed Friday with only "clean up" work still to be carried out, according to the contractor, E. A. Weinel, who also announced that he had received a ruling from the National Labor Relations Board in Washington favorable to his firm over Teamsters' Local 525.

The union began picketing the water line project and the firm's East St. Louis offices last February and later removed under an agreement prior to the start of NLRB hearings were conducted in St. Louis during March.

The dispute arose over the assignment of work tasks, the unloading and loading of materials from the firm's trucks. The NLRB ruling stated the Teamsters Union was not entitled to the work assignment. Weinel said his attorney to determine if a civil suit should be filed against officers of the union.

He said all of the water lines are now installed, including the line to serve the grade school bus stop. Construction work is being completed, and a few connections have yet to be made.

When all connections are made, there will be 565, and all the water lines to the area will be in place.

The project was financed by the Pontoon Beach Public Water District through a \$300,000 loan from the Federal Housing and Home Finance Agency. The project cost was \$245,792.

Solons' Attendance To Decide GC Budget Passage Tonight

Granite City's revised \$1,465,942 budget, placed on first reading last week, probably will be the first item of business on the agenda of tonight's council session—provided enough aldermen are present.

Mayor Davis and Alderman Paul Buehler, chairman of the Finance committee, were hopeful the budget would be passed last week, but when only nine aldermen appeared for the meeting, it was obvious that no final action would be taken.

The mayor said vacations and night shifts caused the slight attendance, but that he would try to arrange for working sessions to be released from their job for the evening in order to vote on the budget. "If that can't be done," he said, "we'll just have to call a special session."

The nine aldermen present last week approved the mayor's recommendation for hiring an additional fireman, increasing the size of the force to 35 men, and relieving Assistant Fire Chief Curtis Donley from regular duty to conduct training classes and to make necessary fire inspections in downtown and public buildings.

The extra fireman, if the proposal is given final approval, will add \$4600 to the budget.

Also announced during last week's meeting was the city's intention to utilize its growing sales tax reserve for operational expenses and tax the levy.

Last year's tax levy amounted to \$1,465,942 for a budget of \$1,465,942, which included \$225,000 for fire house construction. Actually, \$180,882 sales tax money was spent on the fire house in the 1959-60 fiscal year, and for the current year payments totaling \$38,000, also to be paid from sales tax, are to be made.

The city on May 31, had a \$94,000 balance in the sales tax fund. Minus the \$38,000 to be paid.

THERE WERE FEW ANCIENTS AMONG THE "ANCIENT ROMANS"

THE AVERAGE ANCIENT ROMAN LIVED TO BE 22

The American born in 1961 can look forward to a life span of nearly 70 years. Since 1900 alone, average life expectancy has climbed on incredible 20 years. Medical progress is the great achiever of these revolutionary gains. New research and new knowledge today promise even further advances.

Nevertheless, neglecting to see a physician in time to benefit fully from modern medical science is cheating many not only of average years, but of extra years. Clearly, the great step toward better health and longer life is simpler regular medical check-ups.

Boy Sought By Police Gets To Visit Mother

A local boy who in recent months tried several times without success to go to California to see his mother finally made it, it was learned today.

But the reunion will end shortly when the 15-year-old youth returns to Granite City under the auspices of the Co-Ordinated Youth Services, who will file a petition to place the boy in an institution "which might best fit his needs."

Two weeks ago today, June 13, the boy broke into the home of Kenneth Fenton, 2404 Center street, and stole about \$375, apparently to finance a trip to Montana. Police traced the boy to Livingston, Mont., and learned from a sheriff there that the boy had met another youth in Aurora, about 18, and divided the money with him.

The other youth accompanied the local boy as far as Garner, Mont., and then they had split up, a Youth Services spokesman said. The second youth has not been located.

Permission was granted from local authorities for the boy to make the trip to see his mother in Long Beach. Police had expected the boy to go directly to the west coast, after learning from two girls this was the boy's intended destination.

Capt. of Detectives James R. Lowder said during the investigation the local stationmaster had identified the boy's picture as that of a youth who had bought a ticket to Omaha, Neb., with a \$20 bill and a new \$2 bill. Final disposition of the case is uncertain, but local youth authorities said recommendation earlier was that the boy be placed in a trade school.

The boy had been an habitual truant at school since last fall, the source said. His parents are divorced and the boy has been living with relatives here.

In other contests in the 1920-member local, Edwin J. Kelley, incumbent, defeated Richard Schneider for recording secretary; James H. Grady defeated Ronald Guenther for guard; Wilford Parks, Earl Treadwell and Albert Shane were elected as trustees, with Gary Tucker losing; Clyde Bradshaw defeated Kelley and Harold Fisk for joint committeeman; David Davis won over Henry Copman for North Plant grievance committeeman; and Bradshaw defeated Shane as Main Plant grievance committeeman.

Seven Candidates To Compete For Jaycees' 'Miss Granite City' Title Saturday At Wilson Park

Winner Will Represent GC In 1961 Miss Illinois Finals

The Granite City Junior Chamber of Commerce today announced the names of seven candidates who will vie for the title "Miss Granite City of 1961" Saturday night at Wilson Park.

At stake will be the right to represent this city in the 1961 "Miss Illinois" pageant to be held next spring in Mount Vernon. The local finals are being held in conjunction with a July 4th weekend celebration sponsored by the Granite City park district.

The beauty pageant finalists, selected by a Jaycee screening committee, will be judged not only on their physical attractiveness, but also on poise, personality and talent. Hugu Asadorian, Jaycee contest general chairman said.

Actual judging by a panel of four out-of-town judges whose names will be revealed later this week, will begin early Saturday afternoon during a tea to be held in the home of Mrs. Harry Serfas at 2901 Benton street.

Parade Through GC

Prior to the tea, the candidates, together with the retiring "Miss Granite City," Beverly Blaylock, will ride in open convertibles through the downtown Granite City area. The parade will begin at Wilson Park at 1:30 p.m., ending there one hour later.

At the afternoon tea, scheduled from 2:30 to 5 p.m., judges will rate the candidates on their personalities while in conversation with the girls in informal surroundings.

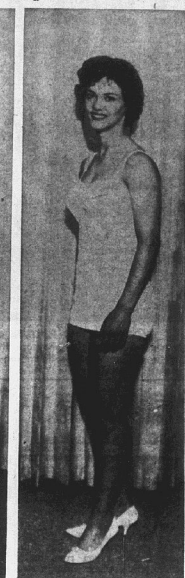

The contestants will be driven in the convertibles to their respective homes at the conclusion of the tea, and are scheduled to reappear at the sunken gardens in Wilson Park at 7:30 p.m., where the final portion of the contest, which is open to the public, will be conducted.

The candidates will first appear in formal, then return for judging in swim suits and reappear finally to present the talent portion of the contest. A special stage is being erected at the southernmost part of the sunken gardens, and will be the scene of the finals.

The pageant setting will be illuminated with colored lights, and background organ music will be provided by Jack Johnson. Master of ceremonies for the final portion of the contest

Cycling Nurses Set No Records On Belleville-to-Granite City Jaunt

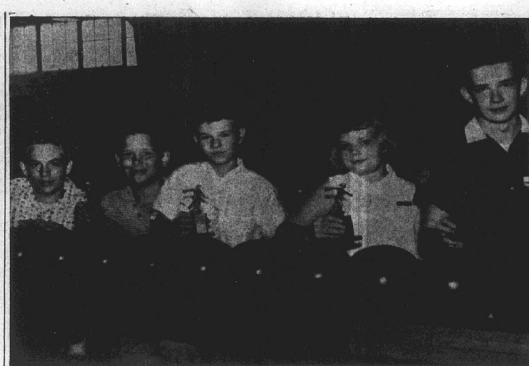

How much time is required for a trip from downtown Belleville to a residential area in Granite City — by bicycle? Three young women, none of whom had been on a bicycle "since high school days," set out to answer the question for themselves Saturday morning.

The answer, they came up with: two hours and 45 minutes, counting stops for cold soda and at railroad crossings to "let trains pass. Certainly no record, but a lot of fun for the trio of cyclists.

All three are nurses at St. Mary's Hospital in East St. Louis, and the 30-odd mile trip resulted when the unlikely subject cropped up while they were at work.

The result was a friendly bet between Miss Betty Jean Reszly, daughter of Mr. and Mrs. Alex Reszly, 2429 Hodges avenue, and a second nurse, Suzie Lanter of Belleville. The third member of the trio, nurse Mickey Thompson of East St. Louis, went along "just for the ride and to keep them honest."

The girls began their jaunt at 8:30 a.m. at the junction of By-Pass 50 and Illinois Route 460 in downtown Belleville, riding bi-

Green Hall, Lincoln Place Win Makeups

Late-inning scoring outbursts helped Lincoln Place and Green Hall AC to win Saturday night in make-up games in the Granite City park district's Class "B" softball league at Wilson Park.

Lincoln Place bunched four of its five hits in the last two innings for a 2-1 win over Moose Club 272, while six of Green Hall's eight base knocks came in the final two frames during the course of an 8-2 decision over the Granite City Steel Credit Union.

Larry Becerra kept seven hits well scattered and was the Lincoln Place winning pitcher. He had a shutout until the top of the seventh, when Moose Club came up with two hits and tied the score at 1-1. Cotton Single took the loss for Moose Club.

Fred Cavins gave the Credit Union an early lead in the second game with a first-inning home run, but his club was shut out the rest of the way by winning Hurier Oren Harrison.

Green Hall scored single runs in the second and fifth innings without the benefit of a hit, and then broke loose with six hits and as many runs in the last two frames. Paul Etherton took the loss for the Credit Union.

Biggest upset in Prekness history happened in 1925 when G. Cochran's Coventry paid \$45.60 for \$2.

Venice Group Presents Shriner Hospital Check

Mayor John E. Lee, president of the Venice Crippled Children's Organization, presented the group's check for \$500 to George F. Morrison, past president of Moosh Temple and treasurer of the St. Louis unit, and to Mrs. Eleanor Baird, executive administrator, Sunday afternoon at the Shriner's Hospital in St. Louis. Pictures were taken after which Mrs. Baird conducted the group on a tour of the crippled children's hospital.

Others attending were Mrs. Lorene Morris, Mrs. Ann Harnden, Mrs. Crooks Warnhoff and William Eberhardt, all of Venice. Shriners from Madison attending were Supervisor Arthur W. Moore and Claude Echols.

Hearts Slip To Second Place After 6-1 Loss To Maryville; Mercer Lead Cut To One Game By McMackin, 6-4

Granite City teams today cannot claim the top positions in both divisions of the Southwest Illinois Inter-City Baseball league for the first time since the league began play in its 30th campaign this spring.

Sacred Heart, faltering in recent weeks after setting a torrid pace in the early running, fell into a tie for second place in the Red division after being humiliated by lowly Maryville yesterday afternoon at Wilson Park, 6-1.

And Mercer Funeral Home dropped in the Hearts' downfall by dropping a 4-4 decision to the new Red division leader, McMackin, in Collinsville Saturday night. The results marked the first time this year that both local squads have been defeated on the same weekend.

One other surprise cropped up when Highland, taking advantage of time errors by State Savings of East St. Louis, won 9-5, McEater Glass, with a 3-1 victory over White City, and within a game of Mercer in the

Blue division. "Troy" (won) its first game up a forfeit over Carpenter, which failed to field a team.

Jack Buente went all the way for Mercer, giving up only six hits. He was hurt by three errors, all of which figured prominently in the McMackin scoring. The host team scored once in the second on an outfield error and single, once in the fourth on a double and two errors and made it 3-0 in the fifth on a walk, infield out and base hit.

Merced dented the scoring column for the first time in the sixth when Roger Wells walked, stole second and took third on a throwing error by Catcher Dave Carnigh, Jim O'Master's base hit brought him across.

Branding Homers

In the seventh, Mercer took a 4-3 lead when Don Crabtree scored on a sacrifice fly by John Modrusis's three-base blast. Wells drove Modrusis across with a sacrifice fly and Rich Branding followed with a

towering poke over the wall in right-center.

The rally was wasted, however, when McMackin came up with the deciding runs in the bottom half of the same inning on a walk, single and three run homer by Walt Rosenkranz, which just cleared the wall and outstretched glove of Charles Johannsmier in right-center.

Merced threatened mildly in the eighth and ninth when Rudy Diak, who had three hits, and Modrusis singled. Rich Williams playing his first game as shortstop, had one hit, with Merced getting nine safe blows off starter and winner Ray Rosenkranz, who went seven innings, and Bob Kovacic, who finished up. Diak caught the entire game for Mercer, who now has a 7-2 record.

Shutout For Eight Innings

The Hearts ran into Maryville Pitcher Don Lucas at his best. He scattered eight hits and had Lyman Tucker's squad shut out eight innings, scoring only its only run in the ninth when Lucas appeared to be weakening, but left-handeder Cecil Simpson came in for the winners with one out and quashed the Heart rally.

Ronnie Parker pitched his first complete game for the losers, also giving up eight hits. Maryville did its scoring in two-run spurts, in the second, fifth and seventh frames, and took advantage of the five free passes given by Parker.

Lucas struck out six for the Red Sox, who won their second game to go with seven defeats. The Heart, lost dropped the second-place tie with State Savings. Both have 6-3 records and trail McMackin by one full game.

Beginning Swim Classes At Park Pool Scheduled

Beginning July 6, the Granite City park district will offer swimming lessons at the Wilson Park pool for beginning and intermediate swimmers eight years of age and older, Park Supt. O. H. Williams said today.

Once the July 4th holiday activities in the park have been completed, three sessions for each group will be held each week for a period of four weeks. Boys' classes are scheduled each Monday, Wednesday and Friday from 8:30 a.m. until noon, and girls' classes at the same time on Tuesday, Thursday and Saturday.

Enrollment in the classes is limited to 200 boys and 200 girls. Williams added. An enrollment blank, to be completed and returned to the swimming pool office, will appear in Thursday's issue of the Press-Record.

An adult women's class also will be offered this summer. It will be conducted at the pool each Wednesday from 11:45 a.m. until 12:45 p.m., beginning July 6. The class is scheduled for from six to eight weeks, depending on enrollment. Women will be charged the regular admission prices for each session.

The car earned top awards for best paint job, best interior and most distant entry, and placed second among semi-custom coupes entered in show sponsored by the Stove Bolt Club of Pekin.

CAP Conduct Practice Missing Plane Search

On Saturday and Sunday members of Group Six, Civil Air Patrol, commanded by Lt. Col. Clarence Bergsliker of East St. Louis, participated in the annual Illinois Wing practice search for missing aircraft. Conducted from Salem, the practice was held to determine the wings' proficiency in carrying out CAP's first line mission.

Twenty CAP personnel, using six aircraft and three mobile radio units, took part in the operation.

Participating in the low-level search from the Granite City CAP Cadet squadron were squadron commander William J. Piel, of 2444 Benton street, squadron executive officer Benjamin Minemeyer of 3000 National avenue, and cadets Victor R. Morrison, Sharon Barnett, Robert Toman and Anton Baker.

Briggs Wins 8th Straight In Tavern Softball Play

Briggs Tavern rolled to its eighth straight win in the Sunday morning Tavern Softball league, protecting its two-game lead over the top of the league and Polish Hall jumped from third into a tie for second place to highlight yesterday morning's action.

Briggs downed Club Delmar 9-3, as Pete Burdge socked a home run to win the game's most valuable player award. Chuck Gang gave up 13 hits, but Briggs played near-perfect ball in the field, enabling Gang to go all the way and win. Briggs had 10 hits. Jerry Howell went 2-for-3 for the losers, who are 1-7 on the year.

Futsal Hall vaulted past Sportsman's Club and Dick and Edith's into the battle for second place by downing Dick and Edith's 8-5. Dick Asperger was the winning pitcher, and Howard Theule the loser. Dick Friend, who makes a habit of hitting at least one home a week in the league, did just that and drove in five runs with two hits to gain recognition as the game's top player.

Stan Servatka, Bill Tuttle and Francis Dant each added two safe blows to Polish Hall's 13-hit attack. Dick and Edith's had 11 hits, including three by Everett Cottrell and two each off the bats of John Crnkovich and Clayton Harrison.

Sportsman's Club, in second place last week, dropped a notch when Mary's Place came up with a 4-2 decision. Steve Hardsky gave up 10 hits and was the winner, while George Vivod suffered the loss.

The most valuable player award went to the winners' Jerry Jackson, who went 3-for-4, including a home run. Frank Seardsdale had a double and triple for Mary's, and Chuck Bridges two hits. Jesse Vavra had three of Sportsman's hits, including a double. Bob Dant socked another two-base hit and both he and Ike Bauer had two hits in a losing effort.

Green Hall tied with Polish Hall for the runner-up position by pining an 11-8 setback on July Mill. Winning pitcher Gene McMurry had two hits, including a double, but the game's most valuable player award went to Green Hall's Harold Fortell, who posted two doubles and had three hits in three trips.

Bob Brault also had a brace of two-base hits, and Dick Ganglo tripled for the losers, who had Floyd Barnett on the mound. Barnett had two hits, including a home run. Joe Skowron and Paul Schuler both homered for Green Hall, and Carl MacLean had double and two hits for the winners.

The Bookies Homestead squad was perhaps the happiest crew after Sunday's action, however. The team came up with its first straight win, downing Home of the Blues 6-4. Pitcher John Webster, who was named the game's most outstanding player, collected three hits and held Home of the Blues to eight.

Harold Sabo had three of them. Joe Buzar was charged with the loss. Bookies catcher Bud Grimes also had three hits as did Ray Jones.

Skysteers Win 4 Trophies, Plane Kit In Competition

Four trophies and a model plane kit were brought back by members of the Tri-City Skysteers Model Airplane club yesterday after competition in a meet held at the Hazelwood, Mo., high school with the Hotbeats flying club as host.

Trophy winners included Terry McCormack, third in "rat racer"; Wayne Adams, third in scale; Bill Null, third in combat; and Paul Morris, fourth in combat. The plane kit was won by Roger MacZura in the beginners' class.

Other club members who attended were Jay Riebel, Bill Fuch, John Fuch, John Blum, Ted Jones, Richard Gum, Les Phillips, John Adams, third, Ted Fuch, Tom Lalonde and Larry Simmons.

The Skysteers will compete in a meet Sunday to be held in Springfield, Ill.

5-1 Classic Result Is Reversed By Loop

The 5-1 Classic Legion decision posted by American Legion post 113 over Millie and Mickey's Thursday night has been reversed, with the wing being awarded to Millie and Mickey's, Granite City park district Recreation Director Harold Brown, director of the park's softball program, said this morning.

Brown said the contest is being awarded to the apparent losers as a forfeit because the Post 113 team "has used 21 players in its five games this year," and that only 20 are allowed on the roster.

He said several ineligible players were used by the team in Thursday's game in violation of park softball league rules. At the time, Millie and Mickey's had a 4-0 record and the Legion post was 0-4.

Girls' Softball Teams Begin Play Tomorrow

Four recently organized girls' softball teams will begin regular season play in a Granite City park district-sponsored league tomorrow morning, Recreation Director Harold Brown said today.

Scheduled to play on Diamond No. 3 at 9:30 a.m. are the Blackbirds, captained by Carol Stallings and the Redskins, whose captain is Martha Culpen. On diamond No. 4 at the same time, the Cornets, led by Janet Galtner, will meet the Chatterboxes, whose captain is Carol Watts.

Facts, Figures On New University Indicate Its Favorable Effect Here

Statistics can be misleading or enlightening, boring or entertaining, depending to a great extent on how they are used. Some of the most fascinating figures released recently refer to the effect on Madison and St. Clair counties of the establishment of university facilities here by Southern Illinois University.

Some of the better known statistics on the SIU residence and attendance centers include enrollments of nearly 3500 in degree programs and over 1500 in industrial, adult and technical classes. Over 2000 individuals have participated in SIU-sponsored conferences, workshops and special events in this area during the past year. As evidence that they welcome the proposed construction of a major four-year state university, people of the Quad-Cities, Edwardsville and neighboring communities have contributed enough funds to purchase 1400 acres of the proposed 2600-acre campus.

Figures supplied by Dr. Robert B. Lynn, head of the Southwestern Illinois Council for Higher Education, reveal that 164 full-time professional staff members have been employed in the Illinois Metropolitan Area and are making their homes here. Of the teaching staff, more than two-thirds have doctoral degrees. Faculty members now belong to more than 400 different community organizations in the two-county area. Courses have been taught at ten different locations, bringing to this part of the state a larger share of Illinois' expenditures for higher education.

It does not take much figuring to envision the favorable effect that the new university will have on this area once it is permanently established at the new site on the bluffs — immediately east of the Quad-Cities. One more numerical reference should be noted. It will be only about 10 minutes drive from the local community, which is rapidly expanding in that direction.

Need For Planning Emphasized By Demand For 20,000,000 New Homes

A series of articles by A. Freeman Wolfe, president of the Home Builders Association of Southern Illinois, has outlined the major problems confronting contractors in the next 15 years. Population trends indicate that well over 20,000,000 new homes must and will be built in the United States by 1975. The question is how adequately they will meet the wishes, needs and pocketbooks of the public.

Research is being emphasized in an effort to put more value and better materials into residential construction while holding the line on prices. But there are other factors that complicate the outlook. Land costs have increased in the past five years more than any other portion of the total price for a home. There is growing difficulty in getting land suitable for development, even though nearly all persons and firms in a community have a stake in continued growth and in the impetus to prosperity afforded by an active home building industry.

While renewal of the central part of cities also presents a challenge to construction firms and the public, the builders feel that new subdivisions in the outer sections of cities are the major problem at present. It is believed that the problem may not be adequately solved unless there is increased contact

and coordinated effort by city, county, highway, school and residential planners. The emphasis on new highway construction, for example, is necessitating immediate thought and planning for use of the adjacent land, which in some cases is greatly affected by the highway route.

The review of the home building outlook shows clearly that plans must be made now if haphazard, unsatisfactory development is to be avoided. And it affords additional evidence of the great need for land use and zoning controls in unincorporated areas, currently the subject of public hearings in Madison county.

Nature Warning To Its Task, Displays A Force Far Exceeding Man-Made Power

"Hot air" may seem a touchy subject to broach in a presidential election year, but the weather is a frequent topic of discussion, particularly at the start of each new season. With the longest day of the year and the official beginning of summer reached last week, the Quad-Cities can now expect the year's warmest weather.

The five days ending Thursday were all about the same length, the sun rising at 5:30 a.m. and setting at 8:30 p.m. The sun is now starting to return southward, and the days will grow constantly shorter until December 22, when winter will begin. But the earth stores up heat, and the warmth accumulated while the sun shone the longest will help July and August register the hottest temperatures of the year.

The violence of spring and early summer weather, with its sudden wind and showers, illustrates the vast power of nature compared to that of man. The force generated by a storm is overwhelmingly greater than that unleashed by a nuclear explosion.

As the sun's rays fall upon the earth, the land is heated and in turn heats the air above it. As the warm air rises, it cools and forms a cloud as its moisture condenses. The process continues until a huge formation is created and millions of gallons of water are gathered and then unleashed.

Nature sets a good example with its display of power, for most of it is directed toward good, not evil; only occasionally does a storm become destructive. There could well be a lesson here for mankind to direct its mastery of atomic energy to constructive uses.

"Ounce Of Prevention" Can Reduce Chances Of Burglary

With this week designated as Burglary Prevention Week, and the season of out-of-town trips at hand, it seems appropriate to consider ways of making homes and other property less attractive to burglars. A list of suggestions, originating with area police, was published in the Press-Record last Thursday with the general theme being that families should try to give their home a "lived-in" look while they are away. To accomplish this, the police suggest that the lawn be mowed and the sidewalk swept by a neighbor. All windows and doors should be locked, deliveries canceled, valuables stored elsewhere, shades or blinds in normal position and lights turned on at each evening by an automatic timer.

These and other steps cannot guarantee that no break-in will occur, but they can improve the chances that if it does occur, the burglar will only obtain a few dollars' worth of property. If 64 1/2% of stolen property is recovered, based on national averages, prevention is far better than cure.

9 Quad-Cityans On 23-Member Demo Committee

A 23-member executive board of the Madison county Democratic Central Committee has been designated by Walter "Buck" Simmons of Venice, county Democratic chairman. It was announced Thursday afternoon at Edwardsville by James P. Chapman, secretary of the central committee and county recorder of deeds. Simmons was out-of-town last week. The appointments include three committee officers, Simmons, Chapman and Treasurer Harold E. Hillmer; nine county at-large representatives; and 11 others selected from among the larger townships of the county. Simmons is committeeman of Venice township Precinct One and Hillmer represents Granite City 17.

Mayor William Jenkins of Worden was appointed to the executive group as the representative of townships in the eastern section of the county. He is the committeeman in Precinct One of Ombertown township. Township Democratic chairmen named were Robert Gibson, Granite City chairman and committeeman of Precinct 18; Christ Costaff, Venice township chairman and committeeman of Venice Precinct Nine in Madison; Donald L. Broyles, Nameoki township and committeeman of Nameoki Precinct Two; Louis Zaganelli, Collinsville chairman, Precinct One; Donald McLean, Edwardsville chairman, Precinct Eight; Alva Sparks, Wood River chairman, Precinct Four; William R. Edwards Jr., of Wood River, Precinct Four and Eugene Kitzmiller, Godfrey township chairman, Precinct Two.

The 11 others appointed by Simmons included four from the Quad-Cities — former County Chairman John Bridick of Venice Six in Madison, John H. Haynes of Venice Five in Madison, Bernard J. Batzky of Granite City 12 and Cy Walker Jr. of Granite City 24. Others named were Joseph Gruenfelder of Highland, Salet township Precinct One; Richard Lucas of Collinsville 12; James Vanzo of Edwardsville 10; Gordon Mallory of Wood River 14; Roy Edwards Jr. of Wood River Seven; Wes Molloy of Alton 15 and Leo J. Struif of Alton 20.

Of the 23 executive board members, nine reside in the Quad-Cities. Chapman said the

SAVES MRS. NIXON SHOULD STAY IN KITCHEN Mr. Townsend

Publisher and Editor of the Granite City Press-Record Dear Mr. Townsend: Please give the country your journalistic talents, more needed today than ever. Let's have a man nominated and elected, who, in the opinion of many experts, is needed pretty badly by our country today. He knows politics, is a fine scholar, and has in the opinion of many persons, the best qualifications for the presidency of our great country. We are not too well internationally for several years and this includes several years of the administration of the democratic party. Mr. Nixon does not do his job now, instead of presiding over the senate sessions, he and his wife are roaming the country and are acting like the president. I just can't figure out who of the two is acting like the president. I think it would be more impressive if she would stay more in her kitchen and rear her children. They need a mother not a vice president. Well—I don't know, Mr. Townsend if I did do any good with you, maybe you are a hard-bellied republican like Mr. Dirksen, but what ever you see to it that we get the best man (Stevenson) for the next president of the U.S.A.

Sincerely yours, Joseph Keuenhoff

To the Park Board and Granite City Press-Record Gentlemen:

Everyday, people here in the Tri-City Park area are asking me what is the delay with our park since the ground is filled

Readers are invited to contribute to this column. Name and address must accompany each communication but identity of contributor will not be revealed if anonymity is requested.

The only thing I can tell them is that I don't hold the taxpayer money. One thing I can say here is that I am not in the money with the wrong man in land, escaping the ground. That man has no interest in the people or in this part of the city. I heard him say many things I wish Mr. Williams would say. Let someone else with better equipment to do the work. There are large slabs of concrete on the surface which can't be removed with the grader. Since the park board announced the arrival of some play equipment for Tri-City Park, people and children are driving the crazy asking when they will have something to play on. Yours respectfully, S. BLANK, 2058 14th street.

Mr. C. E. Townsend, Editor Granite City Press-Record Dear Sir: Communism cannot be effectively fought by either demagogic or coy acts. "A Concerned Citizen" (The Forum, Thursday, June 23, 1960) has implied that our children are being subtly taught to accept Communism as something less evil than it is. This teaching being by means slanted textbooks used in our local school system. A disservice will be done our community if "A Concerned Citizen" does not speak out promptly, clearly, factually and specifically, so that other concerned citizens might take effective action.
